During the course of the meeting toity Senator Elikins, who has been conidered an avowed advocate of the anticalping bill expressed himself as someealping our expressed ninear as some-what doubtful as to its expediency. He said that while many of the railroads were evidently favorable in a degree to it there were only two, the New York Central and the Pennsylvania railroad, which were prossing it with amorent central and the Pennsylvania failroad, which were pressing it with apparent real. He said, in view of this fact, he had reached the conclusion, that the majority of the lines were at best indifferent while he thought that some of them were actually opposed to it.

THESE DAYS OF INJUNCTIONS!

This shows How Blackstone Might Rule in Affairs of the Heart.

The young lawyeress was regaling her intellect with "the rule in Shelley's case" on Christmas morning, when the young lawyer who secretly yearned to practice law and matrimony with her till death did them part, was ushered into her presence.

"Merry Christmas, Miss Angell Oncarriers," he said, cheerly, but it was evident that he was agitated.

"The said Merry Christmas to you, also, Mr. Addison Ontorts," the young

aiso, Mr. Addison Ontorts," The Young lawyeress responded, a blush suffusing her checks.

"I have a contract here that I would like to have you sign," the young lawyer went on, hurriedly, handing her the legal instrument as he spoke, "You see I have already affixed my signature thereto."

"This agreement," she began read-ing aloud, "'made this 25th day of De-cember, 189—, by and between Miss Angell Oncarriers, of New York, party of the first part, and Mr. Addison Onforts, of the same place, party of the second part, witnesseth that for and in consideration of the benefits to be secured and the happiness to be enjoyed, each of the parties hereto bath contracted and agreed, and by these presents doth con-tract and agree, to give himself or her-self to the other party as a Christmas sift and to form a legal and matrimonial partnership within one month of the date of this instrument. Young lawyeress persisted, with a very immaterial and irrelevant yet bewitching smile.
"I have here an injunction restraining the party of the first part from any such procedure," said the young lawyer, serving another document as he spoke.

At this juncture, while the young lawyeress was wondering what she should do next, the young lawyer, utterly ignoring the Code of Civil Procedure and the Rules of Practice, gave her a dozen Christmas kisses.

"Know all men by these presents," she murmured.

For a moment the young lawyeress looked for all the world as though she would not be able to "get out of court alive," as her professional brethren are wont to say, but finally she objected, and the young lawyer took exception, of course.

There were a number of features of aggressive strength in to-day's market, but there were also evidences that the sustaining force of these special stocks was taken advantage of to sell out heavy lines of other stocks to realize profits. The center of interest in the market continued to be New York Central. The persistent advance in this stock is attributed very generally in the street to the inside buying and the reports of a pending plan for the merging of the Lake Shore and New York Central find very general credence. All sorts of rumors are constantly affoat professing to give in detail the plans for this merging and also for the consolidation of various Vanderbilt properties, but no official or authoritative announcement has been made, nor is one expected. The advance in New York Central was twice arrested during the day by reactions. The large absorption of the stocks which developed before the decline had reached great length suggested by the probability that the reaction was manipulated in the Interest of those seeking to acquire the stock. Lake Shore yielded 1½ of its extreme advance of 2½ before the close. It is noticeable that the Vanderbilt stocks for the most part closed below last night's final price. Northern Pacific preferred, Kansas & Texas preferred, and Rock Island were leaders of the market in conjunction with New York Central. There were not lacking other features of strength in the market and the New York transit-companies were conspicuous for a sudden and sharp advance in the final hour. But, considering the large volume of business, the small net advance in many active speculative favorites and the mixture of losses on the day's business, it must be regarded as probable that there was a large taking of profits by recent buyers. London had a large account in the local market to-day and on the side of sales there was a balance of 30,000 shares. There was no news

vance.

Sterling exchange responded to the
London selling with a rather firmer
tone. There was no hardening tendency perceptible in the local money

market.

The enormous demand for middle grade and low priced bonds continued in that department of the market today. The volume of transactions thus far in January is said to be far in excess of that for the corresponding period in any previous year. To-day's business was large and the advance is marked in the low priced speculative issues. Total sales \$5,670,000.

U. S. old 4s coupon were ¼ higher bid; the new 4s ¼ higher and the 5s coupon ¼ lower.

The total sales of stocks to-day, were 58,500 shares.

Evening Post's London financial cablegram:

"Winesed by _____,"
"But suppose the party of the first part declines to sign?" the young lawyeres cried, blushing furlously.
"Then and in that event," said the trembline young lawyer, producing a formidable looking legal document with a flourish, "the party of the second part hereby and herewith serves upon the farty of the first part a mandamus compelling the said first party to sign or be in contempt of courting."

"But suppose the party of the first are contemptates making another least contemplates making another least and martimonial partnership?" the young lawyeress persisted, with a very lawyeress persisted, with a very lawyeres and the party of the first part of the first part of the party of the first are contemplates making another least of the party of the first are contemplates making another least of the party of the first are contemplates making another least of the party of the first are contemplates making another least of the party of the first are contemplates making another least of the party of the first are contemplates making another least of the party of the first are contemplates making another least of the party of the first are contemplates making another least of the party of the first are contemplates making another least of the party of the first party of strong and increasing. It is expected here that the Teller silver resolution will pass the United States senate, but the kind of professionals now dealing in Americans is too used to that sort of thing to be upset by it. The Lake Shore and New York Central were especially strong. Grand Trunk was lower. Bank of England stock is the highest ever touched, It will be interesting to note the effect on the half year's profits of the bank's recent policy. Copper shares are recovering. The local discount market continues very firm and all the continental exchanges are rising. It is, however, rumored that more Japanese money will be released at the end of the week.

Brendstuffs and Provisions. CHICAGO-The bulls in wheat today gave another example of how com-

pletely they are in control of the immediate control of that market. The Letter party used January to urge on the excitement of the shorts, holsting the excitement of the shorts, holsting the price of that delivery to \$1 05, an advance of 5c since yeaterday. General covering by shorts resulted in a 23½6 2½c advance in May, while July closed 1½c higher, with the largeste trade in both futures for some time. Reports that Russia would soon become an importer, a big flour business and outside business, all contributed to the strength and made the advance casier. Other diate control of that market. The Lei-

markets were carried upward with wheat, corn and cuts advancing about \$\frac{\psi}{\psi}\$ each, while provisions closed \$\frac{\psi}{\psi}\$ for higher.

Liverpred once again set the pace for wheat at the opening. That market was up \$\frac{\psi}{\psi}\$ filly on futures, and cables from there and from London also were decidedly builish in tone. The British consul at Klef. South Russia, officially said that Russia would probably soon become an importer of grain, that the Russian ports were closing again and that a cargo of Argentine wheat. February shipment, had been sold to-day at 35s 3d per quarter, an advance equivalent to \$\frac{\psi}{\psi}\$ a bushel in two weeks. The Russian news had more effect later in the day than at the opening, which was nevertheless very strong. May, which closed yesterday at \$\frac{\psi}{\psi}\$ copened to-day at \$\frac{\psi}{\psi}

fast as the cash figures did. For a few minutes the excitement was intense find the hunt for cover which took place jumped May to 56c, January in the meantime being quoted at \$1 0215. The market quieted down somewhat for a time, but half an hour from the close the buying fever again broke out as the jumping in January was renewed. In a very short space of time January was bid up to \$1 05. May to \$7%c and July to \$7%c. There the prices hung, with

jumping in January was renewed. In a very short space of time January was bid up to \$1 %. May to \$7 % and July to \$7 % c. There the prices hung, with heavy trading. At the close January was quoted at \$1 64%. May \$7 % 69 7 % cand July \$7 % c. A New York message received shortly after the close said Leiter had soid 2,000,000 bushels of wheat for shipment abroad.

Corn was more active than for some time past. The feeling was quite firm throughout, principally in sympathy with wheat, though no materiol advance in prices took place until the final bulge in the market. Reports of heavy export sales also strengthened the market. Commission houses were good buyers, the selling being largely by room traders. May ranged from 29 % to 29 % c.

There was a large trade in oats, shipping houses and shorts being good buyers. Realizing was freely indulged in but offerings were readily taken, and in sympathy with wheat prices advanced steadily. May ranged from 24% to 23% (92)c, and closed % % higher at 24% to . The lightest trade in the pit was in provisions. Moderate realizing and a weaker hog market caused a sagging tendency to prices during the morning. Strength was developed later as wheat advanced and on buying by early seliers. The closing was firm, May pork being 7% c higher at \$10 %. May lard 5 higher at \$4 97%.

Estimated receipts Friday: Wheat 27 cars; corn 110 cars; oats 90 cars; hogs 23,000 head.

Dry Goods.

NEW YORK—Reports from dry goods stores show, fair returns in all jobbing lines, but quite active trading in first hands. In cottons the market is still delayed and in woolen goods there is still a desire to shop for bargains. Both markets are firm pending a general advance and sellers in all grades are hard to deal with. The activity in the eastern cotton cloth market has been a strengthening factor in the market and the advance in cloths has helped the situation locally very materially. The quota of buyers is fairly large, but as yet these visiting representatives prefer to get the prices than to enter into actual business deals except for very small and scattered lots of goods. In staple cottons there is a firm tone evident, although sales have been of small character, as heretofore. Print cloths have sold again at 23-16c in extras at Fall River, Prints are to-day quiet in nearly all grades. all grades.

NEW YORK—The market for metals shows no essential changes; certainly no improvement. Pig iron warrants closed weak, \$6.50 bid and \$5.65 asked. Lake copper quiet at \$10 85 bid and \$11 00 asked.
